

AlgoForgeStudios

Think Big. Train Smart. Win Hard.

ALGOFORGESTUDIOS

ABOUT OUR COMPANY

A Brief Story About The Company

Algoforge Studios LLP, founded in 2024, is a leading AI and Machine Learning powerhouse dedicated to transforming both careers and businesses. Through our ML Academy, we empower learners with 100% project-based, hands-on training, expert mentorship, and exceptional placement success, while our AI Agency delivers custom AI solutions that drive measurable business growth and rapid ROI. With 15,000+ learners trained, 100+ live projects executed, and a 95% placement rate, Algoforge Studios stands at the forefront of practical innovation, bridging the gap between knowledge and real-world impact.

VISION

AlgoForgeStudios

Think Big. Train Smart. Win Hard.

To inspire young minds to explore, create, and innovate using the power of technology. We envision a future where every child is equipped with the skills, confidence, and curiosity to thrive in a rapidly evolving digital world.

MISSIONS

01

02

01 – Hands-on Learning

We believe children learn best by doing. Our courses focus on real-life projects where students create, experiment, and solve problems through practical application.

02 – Future-Ready Skills

From coding and AI to creative thinking, we equip children with skills that will prepare them for the careers and challenges of tomorrow.

03

04

03 – Fun & Engaging Approach

We make technology learning exciting with interactive sessions, games, and challenges that keep young minds curious and motivated.

04 – Confidence & Creativity

Our programs encourage children to think outside the box, take initiative, and build the confidence to turn ideas into reality.

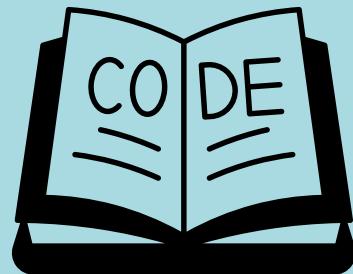

COURSES WE OFFER

SNO	COURSES	PAGE NO.
1	Machine Learning Course Using Python (CMLP Certification)	6
2	Data science with python course	7
3	Python for data science course	7
4	Advance computer vision course (with CMLP certification)	8
5	Natural language processing with machine learning	8
6	Metaverse professional course	9
7	Generative AI course	9
8	Advance content writing & chatgpt course	10
9	Chatgpt & generative AI Mastery course	11
10	Artificial intelligence in marketing	11
11	AI in Financial Forecasting and Risk Analytics	12

SNO	COURSES	PAGE NO.
12	Data visualization expert course	13
13	Data analytics using R	13
14	Diploma in data analyst program	14
15	Data analytics with Qlik sense	14
16	Big Data analytics certification course	15
17	Artificial intelligence & machine learning in business course	15
18	Business analysis course training	16
19	data science professional course	17
20	Machine learning course with R certification	18
21	HR analytics with python	18
22	HR analytics course training	19
23	Artificial intelligence course	20
24	Statistics for data science course	20
25	Power BI certification training course	21
26	Full stack web development	21

SPECIAL offer

At AlgoForge Studios, we design customized courses tailored to your needs. Whether you're a student or professional, our programs are built to match your learning goals and career path. Reach out to us and start your personalized learning journey today!

MACHINE LEARNING COURSE USING PYTHON (CMLP CERTIFICATION)

Master Machine Learning Tools & Techniques with Python and Real Projects

This course enables learners to make data-driven decisions through machine learning, using Python and real datasets. It covers foundational to advanced topics, hands-on projects, and career-focused mentoring.

The program includes 3 capstone projects, 6+ industry case studies, 48 hands-on exercises, mentorship sessions, mock interviews, and placement support. It's ideal for professionals looking to transition into machine learning roles or strengthen their data science foundation.

Course information: Duration: 240 hours total

Level: Intermediate

Mode: Online

Lessons: 15

Certificate: Included

Language: English

DATA SCIENCE WITH PYTHON

Subtitle Master Data Science Techniques Using Python & Real-World Projects.

Learn Python-driven data science from scratch—covering key libraries like NumPy, Pandas, Scikit-learn, along with machine learning, data visualization, NLP, and web scraping to become job-ready.

This comprehensive program provides 32 hours of live interactive training along with 190+ hours of practice-based learning.

Course information

Duration: 240 hours

Level: Beginner

Certification: Included

PYTHON FOR DATA SCIENCE COURSE

PYTHON + DATA ANALYTICS & MACHINE LEARNING FOUNDATIONS

Master Python programming for data analysis, machine learning, and business intelligence. Learn key tools like NumPy, Pandas, and Matplotlib through guided instruction and real-world projects.

- Duration: 32 hours live training + 192 hours of self-paced learning.
- Level- Beginner
- Mode- Online
- certification- Included
- Public Policies and Procedures

ADVANCED COMPUTER VISION COURSE

**BUILD REAL-WORLD COMPUTER VISION APPLICATIONS
USING DEEP LEARNING, CNNs, OBJECT DETECTION & MORE**

- Master advanced concepts of computer vision including image processing, object tracking, neural networks, and transfer learning. Create industry-grade CV projects and applications.

Course Information :

Duration : ~60+ hours

Level: Beginner

Mode: Online

Certificate: included

NATURAL LANGUAGE PROCESSING (NLP) WITH MACHINE LEARNING

MASTER NLP WITH LIVE PROJECTS, ML INTEGRATION & CAREER-FOCUSED TOOLS

- Explore Natural Language Processing from theory to practice using industry-grade libraries. Learn to process, analyze, and generate human language data with tools like NLTK, spaCy, and deep learning models.

Course Information :

Duration: 210 hours total

Level: Intermediate

Mode: Online

Lessons: 11

Projects: 4

Certificate: Included

Language: English

METAVERSE PROFESSIONAL COURSE

MASTER WEB3, BLOCKCHAIN, NFTS, AND THE FUTURE OF EXTENDED REALITY

- Gain hands-on skills in the Metaverse, Web3, NFTs, and Blockchain. Learn to build immersive experiences with VR, AR, MR, and explore real-world metaverse applications.

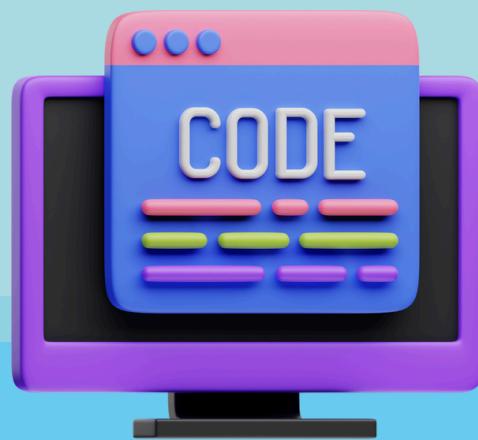

Course Information :

Duration :~240 hours

Level: Beginner

Mode: Online

Certificate: Included

GENERATIVE AI COURSE

MASTER VAEs, GANs & TRANSFORMER MODELS WITH HANDS-ON PROJECTS

- Learn to build and deploy generative models—including VAEs, GANs, and Transformers—for applications in image, text, audio, and beyond.

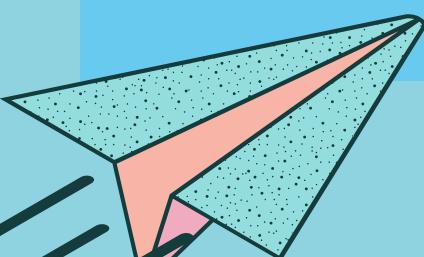

Course Information :

Duration :~220 hours

Level: Intermediate

Mode: Online

Certificate: Included

ADVANCE CONTENT WRITING & CHATGPT COURSE

MASTER AI-ENHANCED CONTENT WRITING USING CHATGPT AND GENERATIVE AI TOOLS

Learn to create high-impact content with the power of ChatGPT, prompt engineering, and modern AI tools. Ideal for marketers, writers, and professionals looking to upgrade their skills in content creation using Generative AI.

Course Information :

Duration :~275 hours

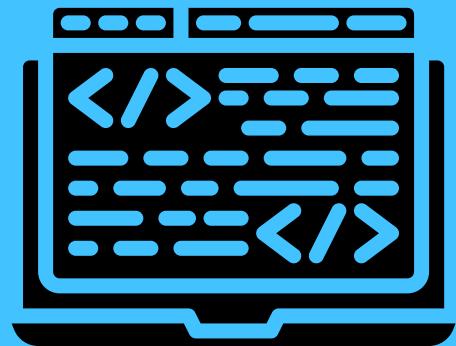

Level: Intermediate

Mode: Online

Lessons: 12

Projects: 8

Certificate: Included

CHATGPT & GENERATIVE AI MASTERY COURSE

MASTER PROMPT ENGINEERING, CHATGPT APIs, AND REAL-WORLD GENERATIVE AI TOOLS

A comprehensive course to master ChatGPT and generative AI tools. Learn to build intelligent applications using GPT-3, ChatGPT API, prompt engineering techniques,

Course Information :

Duration :~30 hours Level: Beginner Mode: Online Lessons: 16 Certificate: Included

ARTIFICIAL INTELLIGENCE IN MARKETING

SUBTITLE EMPOWER YOUR MARKETING STRATEGY WITH AI-DRIVEN INSIGHTS, OPTIMIZATION & CUSTOMER ENGAGEMENT

Master AI applications in modern marketing—learn to use data, NLP, chatbots, algorithms, and optimization techniques to build smarter campaigns and improve customer experience.

Course Information :

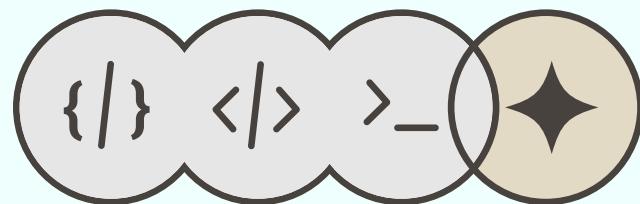

Duration : 8 weeks

Level: Beginner

Mode: Online

Lessons: 10

Certificate: Included

AI IN FINANCIAL FORECASTING AND RISK ANALYTICS

MASTER FINANCIAL PREDICTION WITH AI: STOCK PRICES, LOAN APPROVALS, FRAUD DETECTION, AND CURRENCY FORECASTING

Learn how AI is revolutionizing the financial sector with hands-on projects like stock forecasting, loan approval prediction, and fraud detection using models like LSTM, Gradient Boosting, and XGBoost.

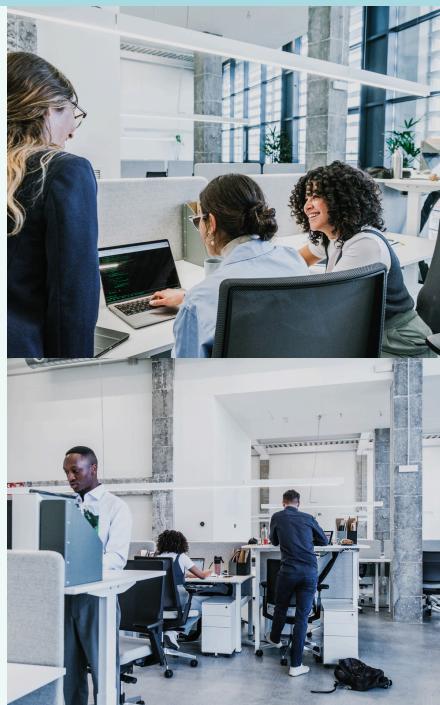

Course Information :

Duration :~10 weeks

Level: Beginner

Mode: Online

Certificate: Included

GENERATIVE AI COURSE

MASTER GENERATIVE MODELS LIKE GANS, VAES, TRANSFORMERS & LLMS

Hands-on training to build real-world applications using Generative AI models with Python, PyTorch, Hugging Face, and more.

Course Information :

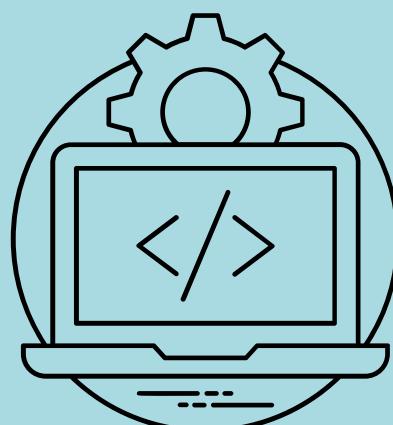

Duration :~ 240 hours Level: Beginner Mode: Online Certificate: Included

DATA VISUALIZATION EXPERT COURSE

Learn to design, build, and present interactive dashboards using Tableau, and communicate data-driven insights effectively.

Course Information :

Duration :~ 280 hours Level: Beginner Mode: Online
Certificate: Included

DATA ANALYTICS USING R

MASTER DATA ANALYTICS WITH R PROGRAMMING

A comprehensive course to build a strong foundation in data analytics using R. Includes hands-on projects, real-world datasets, and professional tools to transform data into actionable insights.

DIPLOMA IN DATA ANALYST PROGRAM

MASTER DATA ANALYTICS WITH REAL-WORLD TOOLS, PROJECTS, AND INDUSTRY INSIGHTS

A structured, career-oriented program combining data analytics, visualization, programming, and business intelligence tools. Ideal for those aiming to become professional Data Analysts.

Course Information :

Duration :~ 720hours Level: ALL Mode: Online Certificate: Included

DATA ANALYTICS WITH QLIK SENSE

MASTER QLIK SENSE FOR BUSINESS INTELLIGENCE AND DASHBOARD DEVELOPMENT

Learn how to harness the full potential of Qlik Sense for modern data analytics, from data modeling and transformation to dashboard creation and real-time insights.

Course Information :

Duration :~ 230hours Level: Beginner Mode: Online Lessons: 12 Projects: 4 Certificate: Included

BIG DATA ANALYTICS CERTIFICATION COURSE

MASTER HADOOP & SPARK ECOSYSTEM WITH REAL-WORLD ANALYTICS TOOLS

A comprehensive program to learn big data technologies like Hadoop, Spark, Hive, Kafka, and advanced analytics techniques for processing and extracting insights from massive datasets.

Course Information :

Duration :~ 220hours Level: Intermediate Mode: Online Certificate: Included

ARTIFICIAL INTELLIGENCE & MACHINE LEARNING IN BUSINESS COURSE

APPLY AI & ML STRATEGICALLY IN BUSINESS CONTEXTS

Gain foundational skills in Artificial Intelligence and Machine Learning tailored for business applications. Learn how these technologies enhance efficiency, decision-making, and automation across real-world industries.

Course Information :

Duration :~ 200hours Level: Intermediate Mode: Online Certificate: Included

BUSINESS ANALYSIS COURSE TRAINING

MASTER ESSENTIAL BUSINESS ANALYSIS TOOLS, TECHNIQUES & REAL-WORLD PROBLEM SOLVING

Gain expertise in business analysis through live sessions, hands-on projects, and globally recognized certification. Learn strategic analysis, stakeholder engagement, business case development, and solution design.

Course Information :

Duration :~ 8 weeks Level: Beginner Mode: Online Certificate: Included

DATA SCIENCE PROFESSIONAL COURSE

MASTER DATA SCIENCE WITH REAL-WORLD PROJECTS, INTERNSHIP, AND INDUSTRY MENTORSHIP

A complete Data Science course for aspiring professionals, designed to equip you with the skills and knowledge needed to solve real-world problems using data analytics, machine learning, and programming.

Course Information :

Duration :~ 10 weeks Level: Beginner Mode: Online Lessons: 12 Projects: 3

Certificate: Included

MACHINE LEARNING COURSE WITH R CERTIFICATION

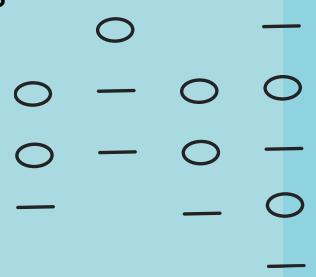

LEARN MACHINE LEARNING ALGORITHMS & DATA SCIENCE WITH R

A comprehensive course to master machine learning concepts using R. Includes real-world projects, practical labs, and job-ready training for aspiring data scientists and analysts

Course Information :

Duration :~ 8 weeks Level: Beginner Mode: Online Lessons: 11

Certificate: Included

HR ANALYTICS WITH PYTHON

**TRANSFORM HR PRACTICES WITH PYTHON-POWERED
ANALYTICS & REAL-TIME INSIGHTS**

Master the fundamentals and applications of HR Analytics using Python. Learn to extract actionable insights from employee data, improve decision-making, and enhance workforce management through real-world projects and industry tools.

Course Information :

Duration :~ 241 hours Level: Intermediate Mode: Online Certificate: Included

HR ANALYTICS COURSE TRAINING

MASTER HR DECISION-MAKING WITH REAL-TIME ANALYTICS & R PROGRAMMING

Learn to make strategic HR decisions using data-driven techniques. This course covers HR analytics foundations, R programming, people management insights, and predictive modeling through real-world projects.

Course Information :

Duration :~ 241 hours Level: Intermediate Mode: Online Lessons: 6

Certificate: Included

ARTIFICIAL INTELLIGENCE COURSE

BECOME AN INDUSTRY-READY AI EXPERT WITH REAL-WORLD PROJECTS & CERTIFICATION

This AI course prepares learners to master artificial intelligence using industry-relevant tools and techniques. Explore neural networks, computer vision, and NLP through hands-on projects and expert-led instruction

Course Information :

Duration :~ 241 hours Level: Intermediate Lessons: 3 Mode: Online Certificate: Included

STATISTICS FOR DATA SCIENCE COURSE

MASTER DATA-DRIVEN DECISIONS WITH CORE STATISTICAL TOOLS & REAL-WORLD APPLICATIONS

Use statistics to interpret data and make meaningful predictions. Learn hypothesis testing, regression, distributions, and variability to support data science workflows and build data-driven models

Course Information :

Duration :~ 2100 hours Level: Beginner Lessons: 8 Mode: Online Certificate: Included

POWER BI CERTIFICATION TRAINING COURSE

BUSINESS INTELLIGENCE AND DATA VISUALIZATION USING MICROSOFT POWER BI

Master Power BI with hands-on training in data modeling, dashboard design, and business analytics—complete with real-world projects and professional certification.

Course Information :

Duration :~ 24 hours Level: Beginner Lessons: 36 Mode: Online Certificate: Included Projects: 3
