04

# OUR TRAINING DOMAINS

## Cyber Security

This domain provides hands-on training in Ethical Hacking, Penetration Testing. Learn to set up firewalls, manage access controls, ensuring the confidentiality, integrity, of critical data.

## Data Analytics & BI

Transform raw data into clear, compelling visualizations and insightful dashboards. You will gain the critical skills to create Business Intelligence reports

## Business Analytics & AI

Bridge the gap between business goals and technical execution. This domain teaches you to use data analysis for strategic management, process optimization, and risk management.

# OUR TRAINING DOMAINS

## Finance & Marketing

Gain the knowledge to navigate, analyze, and profit from global financial markets. This domain covers Fundamental and Technical Analysis, Risk Management, and Portfolio Diversification.

## Big Data Analytics

Master the tools and techniques required to process, analyze distributed datasets. Our courses focus on data ingestion, building scalable pipelines in cloud to handle petabytes of data efficiently.

## Generative AI

Lead the next wave of AI innovation by building and customizing large language models. Learn to create intelligent, unique content and solve complex problems using revolutionary generative technologies.

## HR Analytics

HR Analytics course covers essential concepts such as employee performance analysis, hiring optimization, productivity and workforce forecasting. Through practical case studies and real datasets, learners gain hands-on experience

ALGOFORGE STUDIOS

# COURSE

# DETAILS

01

## Data Science

- Data Science with Python
- Python for Data Science
- Statistics for Data Science
- Data Science Professional Course

02

## Machine Learning

- Advanced Computer Vision
- Machine Learning using Python(CMLP Certification)
- Natural Language Processing with ML
- Machine Learning Course with R Certification

03

## Full Stack Development

- Full Stack Developer Pro course
- UI/UX Designer course
- Python Full Stack Developer

06

ALGOFORGE STUDIOS

# COURSE

# DETAILS

04

## Cyber Security

- Cyber Security Fundamentals Course
- Cyber Security Professional Course
- MBA in Cyber Security

05

## Data Analytics & PowerBI

- Data Analytics using R
- Data Visualization expert course
- Diploma in Data Analyst Course
- Power Bi Certification
- Data Analytics with Qlik Sense
- Data Analytics with Microsoft Power BI

06

## Business Analytics & AI

- Business Analytics with Python (CPBA) Course
- Artificial Intelligence & Machine Learning in Business Course
- Artificial Intelligence
- Business Analytics with R (CBAP) Course

07

ALGOFORGE STUDIOS

# COURSE

# DETAILS

## Finance & Marketing Analytics

- Artificial Intelligence in Marketing
- AI in Financial Forecasting and Risk Analytics
- Digital Marketing course
- Marketing Analytics with python course

ALGOFORGE STUDIOS

# WHY CHOOSE ALGOFORGE

AlgoForge Studios stands out as a leading training hub because we combine industry expertise with practical, project-driven learning. All our courses are taught by experienced professionals with strong real-world backgrounds. We focus on hands-on training through live projects, case studies, and real client assignments, ensuring students gain skills that directly meet industry needs. Our programs are powered by advanced infrastructure including NVIDIA DGX A100 systems for high-performance AI and deep learning workloads. We also provide internships, placement support, personalized mentorship, and portfolio-building guidance to help students confidently begin their careers. With flexible learning options, an updated curriculum, and affordable fees, AlgoForge Studios offers a complete, career-focused pathway for anyone looking to excel in tech.
